A note of thanks

Hanan Refaat*

At the end of this remarkable year, I wish to express my sincere gratitude, also on behalf of the other editors, the members of the editorial board and the publisher of the Future Journal of Pharmaceutical Sciences, to the referees of the articles considered for the 2021 volume of FJPS. Hundreds of busy colleagues have spent their time in assessing close to 1274 manuscripts submitted to our Journal, up from around 670 in 2020, in selecting the ones that may possibly be published, and in improving the quality of the selected articles. Many of the reviewers have helped us in the past years as well, and we are tremendously appreciative and grateful to them. It is largely thanks to them that FJPS is doing well in attracting and publishing valuable exceptional articles in all areas of pharmaceutical sciences and technologies, pharmacy practice and related clinical aspects, and pharmacy education.

Deputy EIC

Azza Ahmed, *National Research Center, Egypt*
